Ke Aloha Aina is Seeing Danger Ahead.

REPUBLICANS ALE BERATED

Traps Allegedly Lan for Lahui in the Way of Promises of Offices.

EMOCRATS are excited over what Trefore they are now ensuaring you papers of that faith are filled with ad- and iven to adventurers and vagrants jurations to the unwashed. Ke Aloha frorCalifornia, Aina in its issue of last Saturday, has hoobeing nibbled by small fishes, only two articles inciting its native readers a bi to draw you on with their talk of against the Republicans. The first is andnducement, with the expectations hardly the product of an Hawaiian, as thayou Hawaiians will flock to them the idiom is that of a haole, but the aga second would appear to be the work of nati Hawaiians were not recognized. some of the native agitators, the general opinion being that it is a politician now ombined and will profit from our of the John Bush school. The articles expence of the past election, which will side our action in doing all that is

What other benefits will the republicans promise to make or give us, if we are all to bolt, and rush head over heels into the republican ranks and join that party? Do not be too anxious; wait a while, before any more benefits should be forced upon us; better wait until we have disposed and enjoyed the benefits received from those annexationists before any more is heaped upon us; otherwise we will collapse if we are overloaded with such promised wealth.

If we did consent, and all of us became republicans, why, then there would be no dissenting voice to be heard from among the people. Why, we will then be compared to a flock of sheep in the hands of the shearers. Shorn of all of our rights by placing ourselves in this manner under their full control, by which we all would be placed at their ologyand hygiene, which is largely due

We are a very vexing body to the republicans, for opposing what they claim in wat was formerly a dry course for to be beneficial annexation. For this we are called stupid fools, and compared to a balking jackass from pure ignorance. What have been the results from this and ygiene has been in use amongst work of theirs, the so-called benefits and wealth the people were to receive as brought about by these annexationists, ery ationality of children attending which we now all see with our own eyes. Not only us, but they also see it. Plenty of so-called good seed was brought here; it was scattered and sown in Hawaii nei, and has borne its fruit, such as thieves, robbers, burglars and murderers, which we are reaping today.

Who are the local republicans, and who are those from abroad? They are all of the one and the same as those of 1893. This is a matter of much importance for us to consider. These two factions of the republicans who are now among us at present. Those republicans, the so-called locals, and those from abroad, are the one and the very same faction which we know of old, those of, 1893, whom we remember so well, the never to be forgotten. They are the same of the Republic of Hawaii, and the party in power today of the Territory of Hawaii; they are the very people who by force deprived you, the Hawalian race, of your rights for some years past, and which was only again restored to you

frauded by them. The loss of country and the loss of civil rights to you, the native Hawalians. Now at this time. these same republicans expect us to take heed of their advice, join and help them in their politics whereby as they claim, we will be benefited. It has been for some years so that the republicans have "bail" as they term the head, is drawn had full control and have lived like our upon the shoulders. Next in turn they Alli in Hawali nei, controlling all the nu- drawthe arms and legs, explaining the merous positions of the government. Now then, have these people taken the trouble to look upon those of you of the land who are now in great need and assisted them by giving them some kind of employment to earn a livelihood for are tild, is the dress for the body and their families? Some of these families keeps it warm, etc. Beneath the flesh are poor indeed. No! This is what they appeals to them as beefsteak. As do: They persist in preaching to you to help and support them in their political work to the detriment of yourselves and country; and only when you have given in to their wishes, and only then, will they give you work; but if you do not comply with their wishes, never will they that f he injures his foot, the telegraph give you any work to do, or will they system is instantly at work and inhelp you out of your troubles. What forms his brain, which tells him he is benefits then can we poor Hawalians ex- hurt. Thus the knowledge of the hupect to get from these republicans? Wheen looking around to see with your own eyes, public work is given to the hao'e malihini, perfect strangers from foreign lands, and also is given to Japa- girls. Two of them are real actists and nese; and you, the native of the soil, surposs their teacher in drawing skelmust be content by laying doubled up in a heap on the ground, as a pile of parts of the body. The interest of the stones. It is a well known fact to some of the republicans who are now in office and power, that there are numbers of offices and other kinds of employment which can be ably filled and carried gut by the natives of the land, but with all body is like a watch, the works of this they take no notice of you and give which must be kept clean, and the suryou such employment as you are most face polished. There has been an imsuited for; but to those of foreign races provement in the way their bodies are will these officials give, and shower upon them, all manner of offices and employment. Against this the Aloha Aina new stands unflinchingly and without hesitation, and states to you, the people of the soil, do not let yourselves be carried bodies just like a pretty watch. What away by any promises from the republicans, do not believe in them in what they tate. say to you during the coming campaign

If you do, all will be lost. This may be our last struggling hope, and we must hold to it. All must stand with the side.

GOOD.

"The Century Book for Mothers."

"Labor: A Novel," by Zola.

"The Portion of Labor," by Mary E. hold to it. All must stand with the side of the Lahui with might and right; by it we will receive aid from numerous and most influential friends who can wisely lead and guide us in doing what is right and fair between the wealthy and those of the struggling poor Hawali is not lacking in material for leaders who can wisely guide the side of the Lahul, in all of its political work of

In the same issue appears an editorial

Your Ballot," which follows:

We refer to Chamberlain's Cough Remhas how a household necessity. "Only a Bait and a Snare to Catch its present use we haven't any doubt thus that it has time and again pre-We have noticed in the Kuokon newspaper of yesterday that the Governor man our own experience, and we sug- found on the shelves. has consented to a request made by the court that our readers, especially those greedy Central Territorial Committee of who have small children, always keepthe Republican party, in as follows: It in their homes as a safeguard "That in the future all government pub- against croup.—Camden (S. C.) Messon-lic work shall be given only to republi- ger. For sale by Benson, Smith & Co.,

This is not anything very difficult for us to understand when we come to look at First, we all know that is has been their nature to do such things from the

first, when they forcibly took the lands from us, the native Hawalians. This is for the coming campaign that these holy

republicans are laying for you, with a blief that you will be taken in again by tiese temptations, and that you will again vote their ballot as you did at the lst election. We fully understand the ause and purpose of this move of theirs giving out this public notice. During he last campaign a very large number f Hawaiians worked hard and earnestly so for the republican party (as they did lso for the Home Rule party), under a ery wrong and mistaken impression, as was only by constant begging that any work or employment was given to any de of you by these two parties (meaning roublicans and Home Rulers).

'hose who worked and struggled so emestly for this cause at the last electh did not receive the slightest recognion for their services by the wind bas of the two parties.

he government does not seem to care, neher do the republicans, for their partyvorkers who did the work, and also theame with the Home Rulers. Therefor it is the general complaint made by the party workers who have openly declad that they will never again be led asty by such people at the next election And we hear all these dissensions froithe ranks of these foremost workers, epresentatives of the winning partiest the last election,

they consider the ill doings of agaiwith such promises as position in they consider the ill doings of thisovernment of theirs, and then with-the Republicans, and the weekly out arning it is taken away from you.

Its like a fisherman with his baited government employment, a cunning trick

Thefore, as it was yesterday, you the the e treatment you receive today; and it w be the same tomorrow. We are rightn the next coming campaign.

NEW WAY TO STUDY THE HUMAN BODY

Horlulu's Cosmopolitan School Children Are Intensely Interested.

On of the most interesting features of sidy in the lower grades of the publi schools today is that of physito the changed methods of instruction the aildren. Since the beginning of the yar a new text book on physiology the tachers, the result being that evschot know more of the construction of th human body and the value of keepig it clean, than they ever did

The students now understand the skeleto, muscles, vital parts and the skin ad evince an eagerness to display neir knowledge. In one little schoollocated just out of town, where the lifle children are more provincial than hose living directly in the city, the sady of physiology is being pursued with, the best results, and there are vry few who cannot, on the spur of th moment, tell of almost every part of the body and compare it and its functins to something with which they are more or less acquainted.

Forinstance, their interest is eaught when the trunk of the body is comparedto a two-story house. In the upper sory they know that the heart and We have been doubly robbed and de- lungsare to be found, and in the lower stry, the stomach and liver. The diaphagm is better understood as a fence. They are made to draw what they consider is the trunk upon the blackboard. The heart is placed, then the somach and liver. Then a "round functions of each set. The sockets into likened to tea-cups and this illustration serves its purpose. The skin, they their former ignorance of this peculiar adjuset, knowing them now as the telegraph or telephone system of the body, For instance, a boy tells his teacher man body is disseminated.

The brightest scholars in this partieular school are the Chinese boys and ctons, arms, legs, skulls and other children has been stimulated in this study, and the knowledge they have received seems to be real and not perfunctory. They understand that the kept since they began this study, and cleanliness is the order of the day. Some of the children have told their teacher that they want to keep their ope does, of course, many others im!

We know of no way in which we can of more service to our readers than s on the market for coughs, colds, "The Making of Jane," by Sarah Barnd that alarming complaint, croup, cans." (When did we ever know that Ltd., wholesale agents.
